

**Hawai‘i Census 2000
General Demographic Characteristics
Profiles:
State of Hawai‘i,
Education Administration Areas,
High School Complexes**

The division of Policy Analysis & System Evaluation (PASE) at Kamehameha Schools is pleased to provide you with this copy of a report containing Census 2000 information for each State Department of Education administrative area and high school complex in the state of Hawai'i. These data have been developed by Proximity to meet the needs of researchers, practitioners, and others. For your added convenience, PASE has created an appendix with corresponding maps that indicate the geographic location of each high school complex. Please contact Proximity directly with any questions about these data tabulations. Contact information is located on the first page of the report. The data are also available online via <http://proximityone.com/hidmi.htm>, titled "Hawaii Education Administrative Area and High School Complex Census 2000 Demographic Profiles". (Copies of this report can also be obtained by calling the PASE department at 541-5372.)
