PASE REPORT 03-04: 22

AT A GLANCE

This publication summarizes the Hawai'i Content & Performance Standards (HCPS II) results for Hawaiian eighth-graders in the Hawai'i State Department of Education (DOE) for school year 2001-02. The data show that in both reading and math, the aggregate scores of Hawaiian students are lower than those of non-Hawaiians. Statewide results are shown in the table below.

Note: Data reported here were current as of December 2002 and include only those schools that have ten or more Hawaiian students. Some changes in numbers over the course of the school year are to be expected due to withdrawals, new enrollees, transfers, etc. The ethnicity data are based on DOE Student Information Forms completed by parents or guardians when students first enroll in a DOE school. This form asks parents to identify the child's *dominant* ethnicity. All children whose parents indicated "Hawaiian" or "part-Hawaiian" are counted as Hawaiian in this report. Comparisons of DOE data with Hawai'i State Department of Health birth data suggest that between 20 and 25 percent of DOE students of Hawaiian ancestry are not identified as Hawaiian in the DOE student information database.
