Table Wala‘au (Talk) Not Just a Meal

O - ‘Ohana goal (Why do the activity?) Family goal

“He pili wehena ‘ole”
A relationship that cannot be undone.

‘Ohana meals together help to build healthy and happy relationships and a strong ‘ohana bond. Mealtimes are an opportunity to help your child build a sense of belonging to ‘ohana, which help to increase your child’s self-esteem. You are your child’s first teacher such as for social skills, and conversation during mealtime provides the perfect opportunity to practice. During mealtime listening and respecting them will show them how to do the same for others. You may also build your child’s self-esteem by listening and valuing what they say, because it shows what they say matters.

Benefits:
Mealtime together is an opportunity for ‘ohana to have nourishing conversations through telling & listening to mo‘olelo (stories) from one another, which will increase and strengthen language and literacy skills.

   i. Where do you think the recipe from the meal came from?
      1. Why did grandma change the recipe?
   ii. Who did you see today?
      1. What did you do with your friend today?
b. The 5 Senses will enhance stories

   ii. How did the sand feel?
