

# Backyard Huaka'i

Welcome scientists and brave explorers! What wonders can you discover in your yard, or area around your home? Complete one station each day and record what you found and where you found it. **Challenge:** Every day start at where you found the answer to station 1 and revisit all the stations until you reach the end!

Pretend you are underwater. As you search around your yard, pretend to swim!

**Station 3**  
Find something in your yard that is **soft**.

Draw and label your smooth object.

**Station 5**  
Find something that is a **natural resource**, or something that occurs in nature that can be used to make something new!

What did you find?

**Station 6**  
Find something that has 4 or more colors in it. Something that has a lot of colors can be described as **colorful**!

Record it!

**START HERE**  
**Station 1**  
Find something in your yard that has the shape of a **triangle**. ▲  
What did you find?  
Was it a living thing or non-living?

Draw what you found.

**Station 2**  
Find something in your yard that has **stripes**. The striped lines can be **thick OR thin**.

Draw your discovery!

**Station 4**  
What is the **antonym (opposite)** of soft?  
HINT: H\_ \_ \_

Find something in your yard that is H\_ \_ \_.

Draw it!!

**Station 7**  
Find something that is **man-made**, or made by a person. Things that are man-made, might be objects made of plastic, metal or something bought in a store (not plants).

I found a...

**Station 8**  
Find something that is **flexible**, or that can bend easily without breaking.

What is flexible?
